A number of years ago, the United Taekwondo Association hosted an intra-school event that allowed students from each school in the association to come together in a positive environment to participate in a friendly, educational competition.

This year, we are very excited to bring this event back to our association. Our hope is that we create a tradition of a well-run, family-friendly event for the students of the United Taekwondo Association.

We have decided to make one change to the traditional format of this event. Instead of winners receiving the usual trophy or medal, all competitors will be awarded chocolate for their efforts — thus, we are calling the event the Chocolate Championships.
